III. OTHER INFORMATION

1. Reasons of loss or inadequate profits

There had been a general recession in the real estate market since financial year 2014-15 which has badly impacted the performance of the most of companies engaged in the business of real estate including Ansal Housing & Construction Limited during the financial year 2014-15 to 2017-18 and as a result thereof there has been a substantial downfall in the turnover and profits of the Company. Considering the present market sentiments/scenario the recession in the real estate market is likely to prolong for some more time.

2. Steps taken or proposed to be taken for improvement

The Company has been making necessary efforts to improve its performance and has been aggressively pursuing and implementing its strategies, including launch of new projects under affordable housing schemes of the Central/State Governments and cost reduction initiatives though the results of these initiatives are likely to be felt in the coming years. Our emphasis on affordable housing shall ensure that our projects do relatively better as we enjoy utmost trust and confidence of customers. We are confident that we will continue to witness

reasonable demand in future in tier II and III cities. Further, we anticipate that demonetization along with full implementation of the Real Estate (Regulation & Development) Act, 2016 (RERA) will also bring in greater deal of transparency in the real estate sector, which will boost the confidence of consumers and that in turn would help the sector grow at a reasonable pace.

3. Expected increase in productivity and profits in measurable terms:

It is expected that in the near future, with the betterment in Real Estate Sector in which the Company operates, the Company shall achieve desired growth and earn handsome profits, keeping in view the profiles of the projects of the Company. However, it is difficult to predict the exact increase in revenue and profit of the Company for future since it depends on many factors, internal and external to the Company.

Implementation of reforms like RERA and GST has changed the landscape of the sector, initiating a new era of transparency and accountability, which has enhanced the trust of home buyers to a great extent. This will not only benefit buyers but will also encourage credible developers while clamping down unscrupulous activities. The affordable housing segment's emergence has also contributed majorly to the sector's growth and has been able to rejuvenate the industry. The Experts believe that it is unlikely to see any price rise in 2018, however the recent reforms will boost the confidence of the home buyers and sales are likely to pick up in 2018.
